

# PROVEN BIOLOGY TO DEVELOP ROOT SYSTEMS & YOUR BUSINESS

# BECOME A DEALER

## WHY CONCEPT AGRITEK?

- Get recognition as a technology leader
- Help customers improve their profitability
- Add agronomy support to your toolbox
- Offer a total program, not just a product
- Industry best sales & customer support
- Diversify your income stream
- Start simple, and grow offering year over year

“ Concept AgriTek has helped me diversify my business by offering new and exciting products. Pair that with great support and service in shipping, plus agronomic advice, they are a company with a very bright future! ”

Chip Keys, Seed Solutions in Paris, IL

Concept AgriTek soil and plant nutrition is a leading source of innovative fertility products that deploy tested, proven and patented formulations that come from real farmer concerns.

Voice of customer is our driving force. We are a team of passionate agronomists, growers and ag professionals that grew up in and around the Farm. We understand soil integrity, moisture retention and biomass and daily seek comparisons to make our products better!

We don't suggest a product, we suggest a prescription. Each order comes with a plan from our Agronomy team.

The Concept AgriTek product line of over 70 solutions offers tested, trialed and proven results, so much that we must expand our distribution model to meet timely demand.

We support our Distributors with protected territories, geographical opportunity, and a team of agronomists that are ready to help you grow your business!

CUSTOM SOLUTIONS THROUGH AGRONOMY, BIOLOGY, & CHEMISTRY

## TECHNOLOGIES

Concept AgriTek is in the business of science-driven agriculture; we don't sell products, we sell solutions. The technologies deployed in our solutions were developed in our labs, but directed by the end-user. They are built on a foundation of agronomy, biology and chemistry and proven in plot.

Therefore, Concept AgriTek isn't a one-time product purchase, we build the relationships that grow agriculture: for the field, for the yield and for the next generation.

### **TRANSMAXX**

TransMaxx is a translocation technology for foliar feeding that allows for the systematic uptake of nutrients that have been difficult, to nearly impossible, to introduce into plants.

### **STRESSTEK**

StressTek is foliar technology that reduces stress a crop is exposed to by boosting the plant's health and immune systems. Helps to reduce yield loss and maintain a positive growth habit.

### **ROOTTEK**

Boost below ground development with this proven plat technology. RootTek enhances early root growth by boosting the plant's hormones responsible for development.

### **PENETEK**

PeneTek is a soil penetration technology that reduces soil compaction, improves soil structure, increases water infiltration, and increases biological activity.

### **NITROTEK**

NitroTek is an advanced nitrogen stabilization technology that increases nitrogen uptake while decreasing leaching and volatilization. This technology is natural and safe to soil biology, and the handler.

### **BIOTEK**

BioTek is a biological technology that delivers a large consortium of live biology, in a suspended state, that becomes active within minutes of initial soil contact.

### **FLAVONOID**

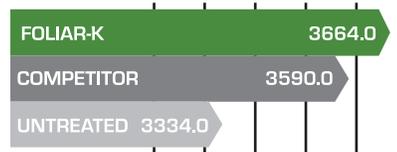

Facilitates several plant physiological processes like enhanced seed germination, pollen development, maximize photosynthesis, plant growth and more.

### **AMINOTEK**

AminoGro harnesses the power of urea, potassium acetate, kelp extracts, sugar beet vinasse, and complex amino acids in a liquid formulation.

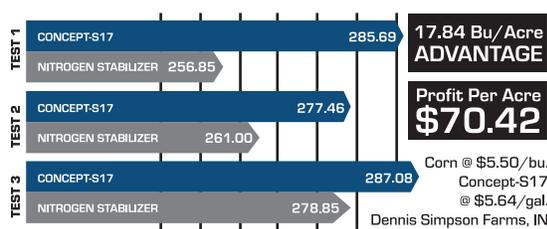

#### MISSISSIPPI COTTON TRIAL

Cotton @ \$0.85/lb.  
Foliar-K @ \$13.58/acre  
**330 LB Yield Advantage**  
**\$61.72 ROI/Acre**

#### CONCEPT-S17 VS NITROGEN STABILIZER

- Bio Health
- Aqua RX
- Biovate XP
- Foliar RX
- Soil Revive
- Nitro Guard (Nitrogen Stabilizer)
- Salt X
- Sweet Success

#### BIOLOGICALS - ORGANIC ACIDS - OTHER

- Fulvic Force
- Sweet Fulvic (50/50 blend)
- Humic 6
- Humic 12
- Humic 24
- Carbon RX
- Crust Buster
- Citric Acid
- D Chlorinator
- NutriHance
- Brix Tex
- Buncha Bugs 2.0
- Buncha Bugs DF
- Buncha Bugs DF Plus OMRI
- BioRite
- BioRice
- Buncha Bugs DF ST
- Buncha Bugs DF ST - WHEAT
- SeedGuard Bio
- Peg Rx
- Waste Master DF
- Residue RX

#### N, P, K

- Total Phos (8-29-2)
- Total Phos Plus (8-29-2)
- Starter 20/20 (0-20-20)
- Starter 20/20 Plus (0-20-20)
- 6-24-6
- Foliar K (0-0-24)
- K13, Complete, KMend
- Total 10 (10-0-10)
- N27S (27-0-0-1S)
- Concept N25B (SRN)

#### TRANSMAXX

- Nutri Tek
- CalBor (10% Ca, 3% B)
- Trans BMo
- Trans Cal
- Foliar 20/20 (0-20-20) TransMaxx
- Trans Zn

#### AMINOTEK

- AminoGro
- Phalynx

#### MICRONUTRIENTS

- Concept B10 (10% B)
- Concept Z9 (EDTA)
- Concept Z10 (citric chelation)
- Concept Ca (EDTA)
- Concept Cu (EDTA)
- Concept S17 (17% Sulfur)
- Micro Pak (EDTA)
- Total Cal (LIQUID LIME)
- Forti Green (HEDTA Iron)
- Forti Cu (glucoheptonate)
- Forti Mg (glucoheptonate)
- Concept Mn (h)
- Forti Mn (glucoheptonate)

#### EPA

- Bio-Aid
- Chitocide Bio (dry)
- Chitocide (liquid)

#### ST

- Seed Guard Duo
- Seed Guard Premium
